

# 72" Sensor Boom for 6", 9", and 10" Diameter Tube Tower For mounting WindSensor (Risø) P2546A Cup Anemometer

## Notes:

- Boom tube is 75" long, zinc-plated steel.
- All U-clamps use 3/8-16 threaded fasteners.

\*Guillotine style U-clamps are intended for 6" diameter tube towers.  
Other hardware is available for mounting to a 9" or 10" diameter tube tower.
