WINDPOWER 2008 AT A GLANCE

Booth #833 is directly across from the Clipper Windpower booth. Please call media contact above any time to arrange a one-on-one interview with a Second Wind executive.

**Featured
Products:**

Triton™ Sonic Wind Profiler re-invents sodar technology for wind assessment. It captures accurate wind data up to 200 meters, in any weather, at any location, without being attended. Readings look like anemometry results, with no expert analysis required. At WINDPOWER 2008, DNV Global Energies Concepts (DNV-GEC) and Second Wind are announcing they have signed a memorandum of understanding to work together on improving and expanding the use of Triton technology. (see separate releases)

SkyServeSM Satellite Wind Data Service provides reliable data transmission from remote locations, using the Globalstar satellite network. Bundled with the Triton profiler or the Nomad 2 Data Logger, SkyServe combines weather data with precise GPS time/location stamps. Live SkyServe demonstrations will be held at the Second Wind booth.

Nomad[®] 2 Data Logger is a reliable tool for acquiring data from up to 12 anemometers and up to 8 wind vanes, temperature sensors, or other meteorological devices. Thousands of Nomad 2s are in service at sites as diverse as Antarctica and Sub-Saharan Africa. Nomad 2s feature advanced operation, low power consumption, field reprogrammability, and WindowsTM-compatible compact flash cards for data storage.

C3 Anemometer measures the wind speed with confidence. This 3-cup anemometer is designed for durability and reliability, with new materials and a manufacturing process that is RoHS-compliant, involving no toxic metals. Available calibrated (model C3) or uncalibrated (model C3C). At WINDPOWER 2008, Second Wind is announcing availability of a MEASNET calibrated option for the highest assurance of accuracy. (see separate release)

**Company
Events:**

Registered show media are welcome to all events. Please RSVP to **Naomi Pierce, 617-776-8520.**

Happy Hour

Monday, June 2, 2008 5:00 pm – 6:00 pm, Booth 833

- *Drinks, great conversation and a special gift right in the Second Wind booth – come by and get Tritonized!*

Triton Informational “Snackinar”

Tuesday, June 3, 2008 4:00 – 6:30 pm, Room 371F

- *Early customers will share their experiences using Triton in the field.*
- *Second Wind will discuss product development and improvements.*
